Susan Swanson, Stewardship Testimony, Oct. 25., 2026

15 months ago, I started searching for a new church, for a number of reasons. After attending services at a few other churches, I happened to come to Christ and St Lukes on kickoff Sunday in Sept of 2025. “Come See Go Be” was the theme of Fr Noah’s sermon, and he also spoke about our responsibility to care for God’s creations--I was hooked—I felt like I’d come home. As an added bonus, there was music at the 8 o’clock service!

I kept returning, attended Adult Formation, got involved in several ministries, and officially became a member.

There really is something for everyone here.

Christ and St Luke’s doesn’t just talk the talk, but walks the walk. We are so blessed to be able to put our faith into action in ways that are meaningful to us, in an environment that is clean and safe and welcomes everyone.

For all of these reasons, it is so import for me to give back to this church community not only with my time, but by pledging each year, so together we can continue to learn, deepen our faith, and do God’s work.
